Step 4 - Secondary removal of disinfection byproduct

Step 5 - Removal of microorganisms, bacteria and viruses

Step 6 - Odor removal

SK magic as your specialist in comprehensive drinking water quality management, we deliver cutting-edge products, routine maintenance services, and rapid, precise water quality analysis to keep your water pure and safe.

1. A "publicly certified" water quality analysis system that goes beyond just filter development, production, and inspection.
2. Prompt response to any abnormalities in water quality during the use of purified water.
3. The only domestic purified water manufacturer with one subsidiary holding certification.
4. Ensuring expertise and objectivity (reliability) in the results of drinking water analysis, distinct from those obtained by national public certification.

SMALLER THAN THE AVERAGE SIZE OF THE ICE WATER PURIFIER INDUSTRY 85%

85% MORE COMPACT SIZE, MAKING THE KITCHEN MORE SPACIOUS
